About Me

Fresh Graduate

I am a Fresh Graduate from AMIK Boekittinggi, West Sumatra with a Diploma in Information Management. Interested in pursuing a career in the field of Operational Officer, Administration Officer, Data Entry, and I am also exploring new opportunities with enthusiasm to contribute to the world of technology. During my studies, I was actively involved in the organization of the Computer Systems Student Association by serving in the Documentation division, this role enriched me in organizational and leadership skills. I also honed my skills through an internship as an operator and administrator at a high school in the administration and data management section, and once created a website as an academic information system for an elementary school. From some of this work I worked freelance as a part time worker in plastic printing. This skill strengthens my social skills in responding to a new problem or new challenge.
